

Vicar's Whore

VW 38

Frýdek-Místek, 14 February 2010

If there has been any moment during rehearsals that makes it all worthwhile, it occurred last week when the Preacher very politely invited Mrs. Carter to get up on the table. She couldn't have asked for a finer gentleman.

Katka should let us know this week when we can go have a look at costumes at the national theatre. Whoever can't make it will have to trust the rest of us to know what size they need. Have a look at the proposal below for the program to accompany the performance. There should be 4 pages in all, the front and back are included here; the middle will offer an overview of the play and cast in

Czech and English. Make sure the information is correct and what you want. One of our good ladies will be so kind and translate the entry for António, preferably Mrs. Carter since she obviously knows him the best.
